

THANK-YOU ALBERTA

“ Doing business in Alberta is one of the best decisions I ever made. Your provincial government would rather underfund its own education and health care systems than charge me and my energy company an extra penny in taxes or royalties. Now i can afford that life-size gold statue of myself.”

— From the desk of M. Branzia —

We're home to the second most valuable oil reserve in the world.

And yet, Albertans are being forced to give up the basics,
like health care, education and senior care. There's a better way.
